COS Bids Farewell To IRCON

Last week the departing COS, Brig M.N. Harbottle, OBE paid his farewell visit to the Irish Contingent at Xeros. He is shown in the photograph talking to Coy Sgt H. Wolverson, during his inspection of the Guard of Honour. After a tour of the Company lines by helicopter, Brig Harbottle was entertained at lunch at the Gp HQ at Xeros.

TRAINING CENTRES FOR DISABLED

Recommendations for the training of prosthetic and orthotic personnel were adopted by a United Nations seminar which met in Holte, Denmark, from 1 to 19 July.

Organized jointly by the United Nations and the Government of Denmark, the seminar agreed on models for the curricula of training programmes for both prosthetists/orthotists and prosthetic/orthotic technicians, and for their responsibilities and ethical conduct.

The seminar supported the creation of regional training centres such as the International Training Centre in Technical Orthopaedics in Teheran (Iran), which provide training in a physical and cultural environment similar to those of the trainees' own countries, and where the training dispensed can be adapted to satisfy immediate needs. It also urged the establishment of an international centre — preferably in Denmark — to turn out instructors for national

UNITED NATIONS ECONOMIC AND SOCIAL COUNCIL

'CHANGES ON MANY FRONTS AT ONCE' STATES U THANT

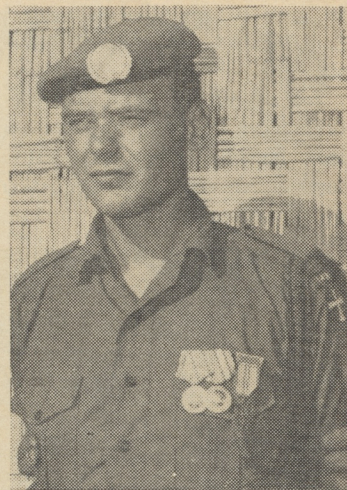

United Nations efforts to help speed economic and social growth in developing countries have brought "a growing recognition that the process of development involves a complex of structural changes in the whole environment in which men live", and that "no single approach is sufficient in itself", a study by U Thant, UN Secretary-General states.

"Changes are required on many fronts at once", and the methods used to foster development must be positively related to one another, the Secretary-General comments in the report, which will be considered by the Economic and Social Council at its current summer session in Geneva.

The study first outlines principles of international co-operation for development and analyzes the objectives of development. It then summarizes concepts that have guided activities, in specific "sectoral approaches to development": development planning, development financing, social considerations international trade, food and agriculture, industrial development, energy and natu-

DANCON Soldier Completes Neijmegen March

Pte Mogens Nielsen, from 'A' Coy DANCON, has just returned from leave in Holland. Whilst there he took part in the Neijmegen-march. Pte Nielsen was the only UN soldier in the 1968 march. He is shown above proudly wearing his Neijmegen medal along with the UNEF medal which he received with DANCON XVIII and his UNFICYP medal for service in Cyprus with DANCON VIII. Well done Mogens.

Konstabel Mogens Nielsen fra A-kompagniet er lige vendt tilbage fra orlov i Holland. Ferien blev tilbragt med at deltage i den internationale Neijmegen-march hvor man skal gå fire gange fyrre kilometer med ti kilo oppakning. Blandt de mange tusinde deltagere var konst

CYPRUS TALKS

JOINT STATEMENT ISSUED BY MR. CLERIDES AND MR. DENKTASH ON THE PROGRESS OF THE LOCAL TALKS ON 25 JULY, 1968.

The first phase of the talks has been completed. This phase covered an exchange of views on the question of the constitutional structure and principles. At this stage we are able to say that there has been identity of views on a number of points and that on others it will not be difficult to establish common ground, but there still remain certain issues, the importance of which cannot be minimized, which require patient negotiations if we are to narrow the existing gaps. We intend to exert all our efforts to bring this about.

If the second phase is completed successfully, it will be necessary to set up subcommittees to tackle the details and the technical aspect of the question.

A break in the talks is needed in order to give us time to make an overall re-appraisal of the views exchanged so far and for further consultations with our respective sides. We intend to resume our meetings on Thursday, 29th of August, at 9.00 a.m. for the second phase.

We wish to express to the press our appreciation for the responsible way in which they have followed our talks and for the understanding shown to us in this delicate and difficult task.

SWITZERLAND CONTRIBUTE TO UNFICYP FUNDS

The Permanent Observer of Switzerland to the United Nations has informed the Secretary-General, U Thant, that the Swiss Federal Council has decided to contribute the sum of \$200,000 to the cost of the United Nations Peace-Keeping Force in Cyprus (UNFICYP) for 1968.

In the text of a letter dated 18 July, 1968, it was stated.

(Continued on Page 8)

DRAMA VED HOFFET

KONGEN MYRDET EFTER PIKANTE OG PINLIGE INTRIGER

Kong Peter I af Cypern har store planer om at generobre Jerusalem, men han mangler både penge og styrker til at starte et korstog. To gange sejler han fra Cypern for i Europa at søge hjælp og støtte til sit forehavende. Under sin første rejse træffer han Valdemar Atterdag i Krakow og Prag, men under den anden rejse i 1368 opstår der en række pinlige episoder ved hoffet i Nicosia. Kongen må vende hjem.

Kong Peter er gift med den smukke og temperamentsfulde spanske prinsesse Eleanor. Han er utvivlsomt meget forelsket i hende, men samtidig står han i et mere end venskabeligt forhold til den unge enke, Joanna d'Aleman.

Da kongen i 1368 tager ud på sin anden Europa-rejse, skal Joanna have et barn. Dronningen opdager det og bliver rasende. Hun lader Joanna kalde til slottet og underkaster hende tortur for at fremkalde en abort. Det lykkes imidlertid ikke. Joanna bliver så kastet i fængsel på borgen Kyrenia, og her føder hun sit barn, der tages fra hende og overgives til nogle hoffolk.

Kongen får bud om, hvad der er sket. I et brev lader han sin dronning vide, at såfremt hun ikke frigiver Joanna vil hun påkalde sig hans vrede og hævn. Eleanor bliver bange. Joanna løslades fra fængslet, men tvinges til at indtræde i Santa Clara nonneklosteret i Nicosia.

Joanna vel af vejen beslutter dronningen sig til at give kongen igen med samme mønt. Hun tager sig en elsker. Det er jarlen af Rouchais, John fra Morphou.

Snart bliver denne affære så kendt, at rigsforstanderen føler sig tvunget til at underrette kongen. Peter afbryder straks sin rejse og vender hjem.

Hans første handling efter hjemkomsten er at løskøbe Joanna fra klosteret for den nette sum af 1000 piastre sølv. Derefter bliver adelen indkaldt til møde og får forelagt brevet om dronningens utroskab. Af frygt for de politiske følger en udvisning af dronningen kan få i Spanien fortæller man kongen, at brevet er forfalsket af budbringeren Visconti, og at dronningen er uskyldig. Visconti sendes til Kyrenias kældre og overføres senere til bjærgfæstningen Buffavento, hvor han dør af sult i fangehullet.

Sagen er ikke hermed afsluttet. Tilliden mellem kongen og hans adelsmænd er blevet svigtet, og kongen benytter enhver lejlighed til at udtrykke sin foragt for adelen. Det bliver dem snart for meget. Tidligt om morgenen den 17. januar 1369 trænger nogle sammensvorne adelsmænd sig ind i kongens sovekammer på slottet i Nicosia og myrder kongen på sengekanten. Jakob de Nores har det særlige hverv, "at afhugge den legemsdel, der har forvoldt dronningens sorg".

Kriminalkommissær Børge Larsen er chef for DANCIVPOL. Han kommer fra Københavns Opdagelsespolitiet og tiltrådte chefposten på Cypern den 18. juni. Den danske politistyrke er på ialt 40 mand.

INDSAMLING TIL BIAFRA

Avisernes forsider har i den sidste tid brugt store overskrifter for at beskrive den nød, der er opstået i Biafra. Biafras løsrivelses-forsøg fra den afrikanske stat Nigeria og den deraf opståede stamme- og borgerkrig har medført, at mange hundredetusinde mennesker nu står i fare for at bukke under for sultedøden. Hvis der ikke meget hurtigt kommer hjælp i form af madvarer og lægehjælp udefra, vil det betyde en katastrofe for de nødstedte.

Under Billedbladets besøg var man naturligvis også på den grønne linie. Her er fotograf Egon Engmann, der startede sin karriere ved Det Danske Kommando i Tyskland, ved at tage et billede af premierløjtnant P.H.W. Heldorf, der inspicerer posten, konstabel Keld Lyngsø.

DANCON NYT

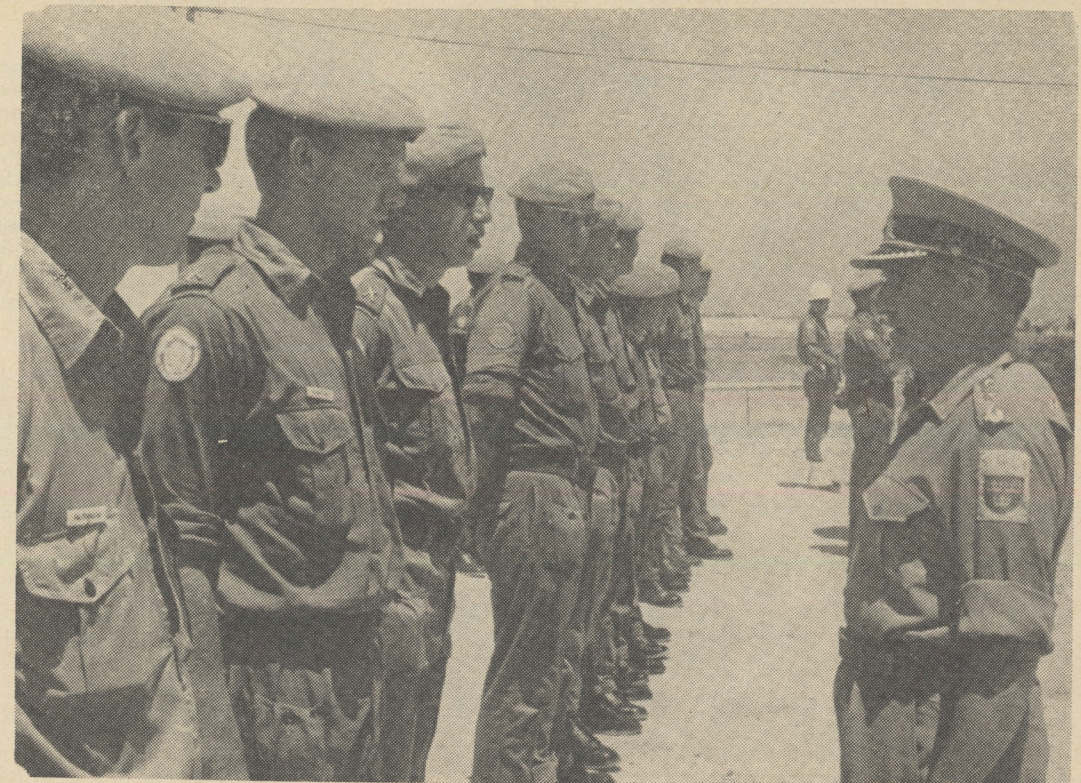

Udvalget i souvenirkanten er måske ikke særligt stort i "den dyre afdeling", men til gengæld har kanten mange kataloger og brochurer, og søger man noget mere specielt kan varen bestilles. Overskuddet fra kanten kommer alle ved DANCON til gode. Her demonstrerer kantenmedhjælper, sergent K. Ølund Larsen et fotografiapparat for konstabel N.O.L. Olesen. På disken ligger brochurer for mange forskellige kameraer.

SWEDCON NEWS

Överste Henricson på 3. komp. Fr. v: Ulf Tibblin, Sala; Hans Norén, Brevensbruk; Peter Åhman, Skottorp; Kjell Johansson, Vällingby och Anders Bengtsson, Halmstad.

SNABBESÖK FRÅN SVERIGE

Den 19 - 23 juli gästades den svenska bataljonen av chefen för P 10, överste G Henricson, och chefen för arméstabens FN-avdelning, överste N H Stenqvist. Detta för rutinmässig kontroll av bataljonen.

Det var bråda dagar för våra båda gäster. Så började måndagen t ex med snabbtur till kompanierna i Famagusta och sedan Chantos. Därpå Larnaca och inspektion där av 3 komp och OPn. Larnaca hade förtidigare på dagen inspekterats av briggen E M Leslie, kanadensisk zonchef och blivande UNFICYP stabschef efter inom kort avgående briggen M N Harbottle.

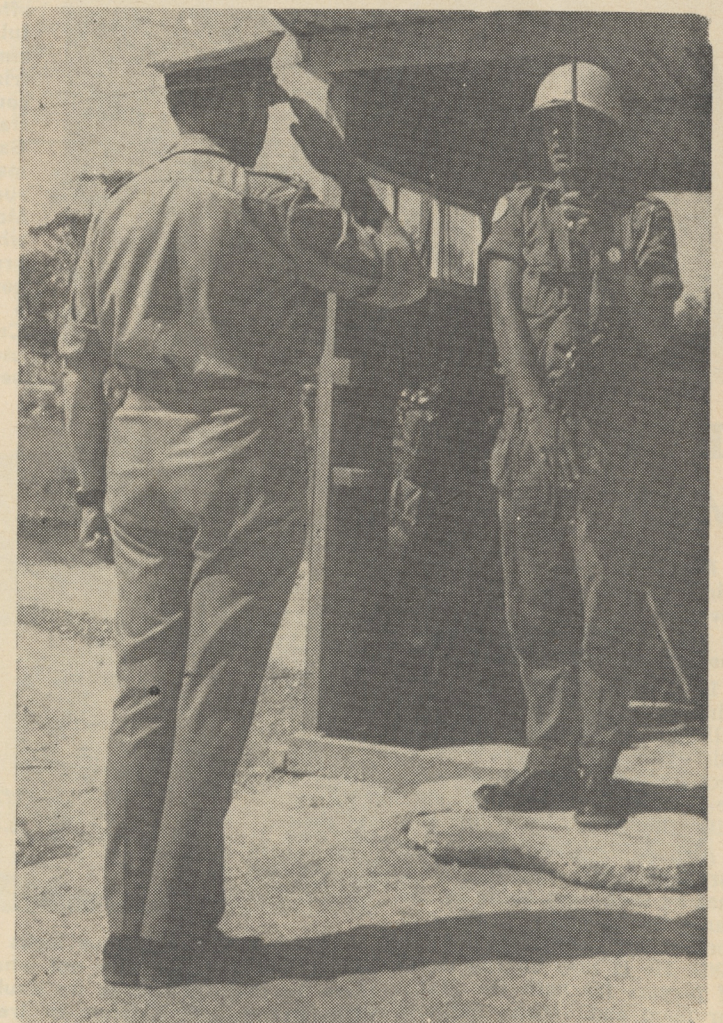

Överstarna Henricson och Stenqvist hade trots jättetid att ägna sig åt personalfrågor - den saken

hade de följt med redan bland HQ-svenskarna i Nicosia, detta innan färden anträdde till Famagusta. På kompanier och OPn fanns det alltid någon soldat, eller något befäl, som hade något på hjärtat och förvisso fanns många problem sin lösning.

Det var varmt och svettigt, fuktigt och dammigt, i såväl Famagusta som Larnaca (för att nu inte tala om sanden som på en del OPn yrdde kring öronen). Men humöret var uppåt hos alla parter.

Överste Stenqvist besteg en kp-bil och samtalade med soldaten i tornet. Artemis Road, Larnaca.

På OP 314 möttes våra gäster av denna snygga skyldring, presterad av Jan Ehrlund, Eskilstuna.

DO - IT YOURSELF

In a quite remote place like OP 2, a little personal effort for the benefit of the small community that lives there can often be both relaxing and useful. Here showing the good example of the do-it-yourself doctrine, Pte Jerry Tallon, a county Meath man presently stationed in Athlone with 4 Garr Coy AOC, lifts a hammer and prepares to reconstruct a storm damaged shelter. More a job for a steeplejack where buildings are perched precariously on mountain ledges? — still OK, for Jerry is a member of the Western Command Gym team and is used to climbing and to heights.

"HAPPY THE MAN"

Nowadays when athletic-minded people see a tall man, they think, not as they used to do of shot putters, but rather of basketball players.

In the case of Cpl Seamus Kinsella who, at 6'3½" is the tallest of the Irish Contingent, this assumption would be correct since, for the past 8 years, he has been actively associated with the game back home.

Although presently playing for Limerick it was with Cork that he really got going in the game for he was a member of the country team from 1961 to 1963. He is now on the panel of players for both the Munster team and Irish national team. With less practice than he would like here in Cyprus, he plays soccer to keep himself fit and usually fills the centre forward berth in the Group team.

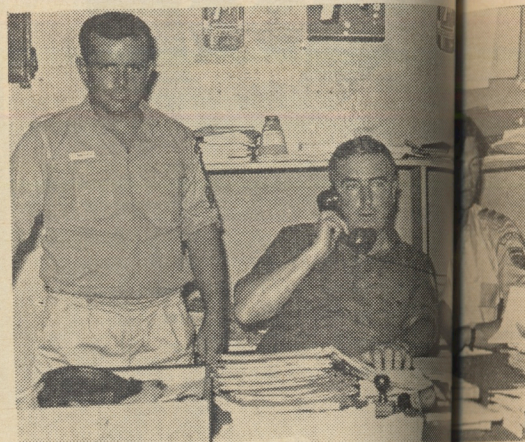

In our photo Seamus looks happy, a transport and logs officer would say, "Why not when his rover is pmo?"... but those in the know have no doubt that his smile is for the little stranger back home in Ireland whom he has not yet seen. Congratulations to both himself and his wife.... and hurry on September!

IRCON NEWS

IN THE SH

The detachment of 'B' Coy in Kokkinos, a happy little group. Seated are Sgt Michael Maher, who years ago exactly, was welter weight champion in the Command and Cpl John Moroney whose favourite pastime is shooting. Back row, left to right, are radio operator Michael Forde, Pte Freddie Cartledge, Pte Finbar, Pte Jim Dell and Pte Noel Mulhall. The last four are all classmates from the same recruit class twelve years ago. But even in that short time one of them, Noel, has written his name in army records for, earlier than any other, won the All Army Novice lightweight crown.

QUEUE OF

Whatever the old song says about a soldier's lot is not a happy one if the head of his unit isn't up to scratch. Here in the Irish HQ, ensuring that the members of 10 Inf Group are happy (from the right) Group Quartermaster, Cpl Frank Mullins and Cpl Montgomery, of the staff.

DRY FISH

"Where has all the water gone?" is the question in the mind of Comdt Ned Cusack, who templates the dry bed of a stream in his area. Always a keen fisherman Comdt Cusack, of the well meant advice that this stream could build its own fishing boat?

With stick in hand, cat under arm and an attentive though slightly jealous dog looking on, is Lcpl 'Brig' Smith, of 644 Signal Troop at the moment doing his fortnight on "Blue Beret Hill", the Rebroadcast Station, at a cool 3,000 feet.

Perhaps some readers recognize the dog, it is 'Snoopy', who lived a short reign of terror at HQ

UNFICYP where his days were definitely numbered. Somehow he 'walked' from Nicosia to Blue Beret Hill and took up residence with the cat, 'Fred' the Hedgehog, and a pack of animals who frequently drop in for refreshment when padding around the arid hills.

Morale is high up there and two crews alternate fortnightly.

CHECKING THE NETS

Lcpl 'Twiggy' Trigg from Cranleigh, Surrey, centre knows what a fishing net looks like, as he spent some time working on the fishing boats in Cornwall before joining the 4/7 Dragoon Guards. With him on the jetty at Zyyi is Tpr Ray Spendley from Baildon, Yorkshire who is pretty handy at carpentry. Perhaps the Squadron could build its own fishing boat?

MEN OF THE HILLS

Sgn 'Mahogany' Rogers tops up the generator with some 'juice'.

A Whirlwind from 230 Sqn, drops in on Mondays, Wednesdays and Fridays bringing mail, food, petrol and water.

Sharing duties with Lcpl Smith has been Sgmn 'Mahogany' Rogers who likes to sit out in the sun most of the day and recall the troopship 'Nevada' and the good old trips to the East via Las Palmas and The Cape! He is responsible for the maintenance and cooking on the hill.

Both have a few months of their tour to go but when it gets colder it is going to be very cramped in the hut on 'Blue Beret Hill'.

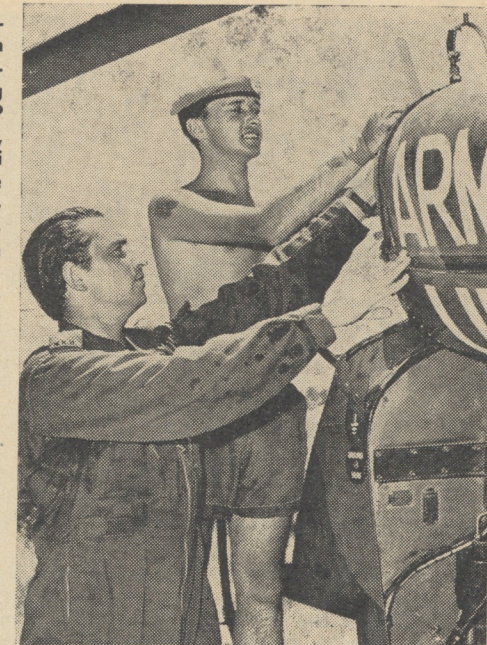

BRITCON NEWS

KEEPING AN EYE ON THE FUEL

Captain 'Muff' Capper - Jackson from Cirencester in Gloucestershire, serving with the UNFICYP Flight of the AAC, was down in Zyyi recently to give some instruction on CASE-VAC by Sioux helicopter, to 'C' Sqn 4/7 DG.

As there were no rich, long haired blondes in the camp, a good morning's work was done!

Checking on the fuel situation in the 24 gallon tank is Lcpl 'Has' Haslam from Mansfield, Notts, a Scout Car commander, who has served in Aden, The Gulf and Germany.

HMMMM INTERESTING

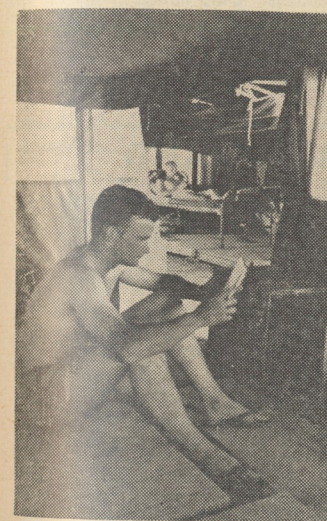

The newly arrived Senior Medical Officer for the Canadian Contingent, Major Syd Joss, seems to have found something interesting as he inspects the ear of a patient. This is Major Joss's second tour in Cyprus with the Canadian Contingent. With him is Sgt Bill Skoblaniuk, chief administrative NCO of the 6 - bed hospital at Camp Maple Leaf.

MASTER BUILDER: A master builder in his own right, Sergeant Tom Reid of the 1st Battalion, Princess Patricia's Canadian Light Infantry, (seated) has over 700 models of all types in his den at home. Carrying on his hobby in Cyprus he is seen putting the finishing touches to a model yacht which has taken over 16 man-hours to construct. With him is Master Warrant Officer B. A. Franklin.

309

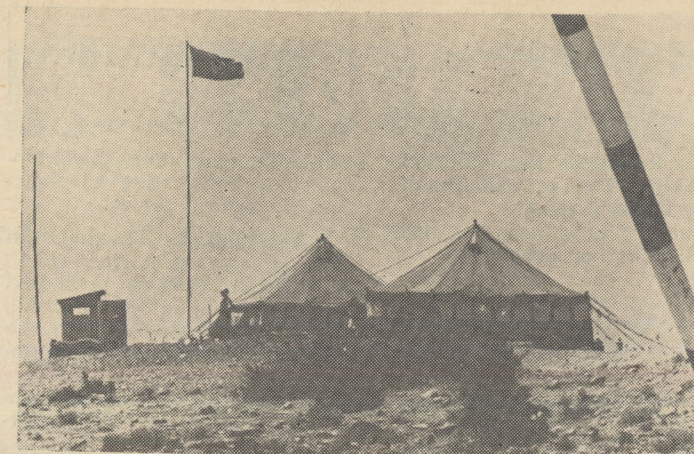

Vartiopaikka 310, kohtalaisen korkean nyppylän päällä, jonne tuuli miellyttävästi puhaltelee. Rauhallista on ollut, joskus paikallinen turkkilaisjohtaja vierailee suomalaisten luona kertomassa huoliaan.

Sisäkuva 310:stä. Kelpaapa istua puhtaalle lattialle vaikka hetkeksi lueskelemaan, kun ei vartiointivuorokaan ole vielä lähellä. Teltta on miellyttävän viileä majapaikka kuumassa ilmastossa.

Vartiopaikka 309, hyvin maastoon sijoitetut teltat ja jäitä juuri tuonut Land Rover. Jäiden odotus ja niiden saapuminen aamupäivällä muodostavat yhden ohjelmanumeron päivittäin sekä 309:llä että 310:llä.

KUUN MAISEMASSA

Nicosian vihreä linja ei ole ainoa paikka, jolla suomalainen Kyprosjääkäri tarkkailee ja vartioi. Kaksi teltallista eli kahden ryhmän verran löytyy miehiä mm. Mandres Hamidin kylän takaa arolta pisteistä 309 ja 310. Maasto on sellaista, että kuusta saattaa löytyä lähinnä samantyyppisiä maisemia, että maaperän liikuttua maakerrostumat ovat paikoin selvästi nähtävissä. Varsinaista kasvillisuutta ei ole, kaikki näyttää kuolleelta.

Vartiopaikka 310:ltä löytyi vanha tuttu, sotakoira Ville, joka on aikoinaan vaikuttanut Releellä, pistäytyi myös alhaalla Nicosiassa, mutta muutti vähin äänin takaisin vuoristomaisemiin. Paitsi Villeä, löytyy pisteistä 309 ja 310 lähemmäs kymmenkunta miestä, yksi joukkueenjohtaja, yksi kersantti, autonkuljettaja, ja loput ovat vartiopäälliköitä. Joukkueenjohtaja, Ltn Viitanen kertoi kers Lönnforsin säästämänä, että karusta ympäristöstä huolimatta kyseisillä vartiopaikoilla viihtyy hyvin. Kolme jääkärää saa kerrallaan olla kaupungilla tai Kyreniassa uimassa, muilla vartiotöistä vapaina olevilla kuluu aika lueskellessa tai ruokia laitella. Pojat kokkailevat itse, ruoka, joka käsittää eri-

laisia säilykkeitä, kananmunia ym. helposti valmistettavaa tuodaan helikopterilla kahdesti viikossa. Juomat saadaan pysymään kylminä jäiden avulla, joita tuodaan yksi landroverillinen joka aamu. Ellei pojilla vielä olisi käytettävissä jääkaappia ja kaasulietää, olisi ruuan valmistaminen varmasti melkoisia temppuja vaativa toimenpide. Kyproksen kuumuudessa ruuan pilaantuminen on vain ajan kysymys, ja nuotiota ei voi tehdä, koska ei ole puita.

Oman yksikön vierailijoiden lisäksi käy vartiopaikoilla kyproslaisia lammaspaimenia hakemassa ylimääräistä leipää. Keväällä on nähty teltan läheisyydessä muutamia käärmekin ja jokunen pieni skorpioni.

Yöt kuun maisemassa ovat miellyttävän viileitä nukkua, poikien mielestä ainoa viihtyvyttä rajoittava tekijä on se, että aurinko nousee aikaisin aamulla ja alkaa paistaa silmiin.

310

Jääk Sepällä oli vartiovuoro 309:ssä. Taustalla näkyy majoitusteltta, osa keittiöteltasta ja kuun maisemaa.

FINCON NEWS

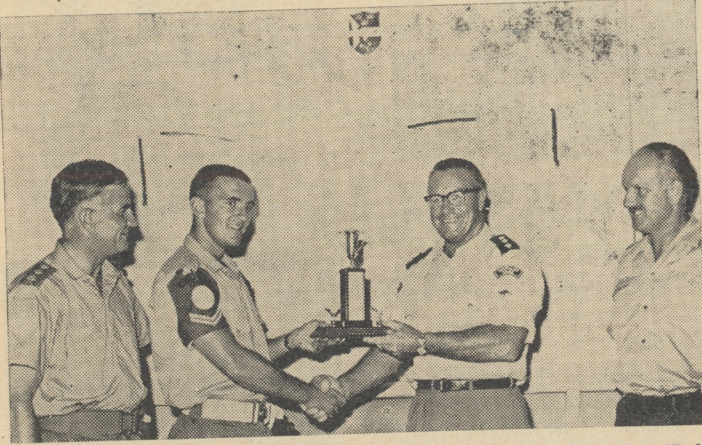

Vartiopaikka 9:n päivittäistä puuhailua. Kuvan oikeassa reunassa vesastian takana on juuri saapuneita jääkuutioita, vanhat palaset kaadetaan pois.

Jääk R Soininen siirtää jääpalaa nopeasti 309:n keittiöteltasta pois polttavasta auringonpaisteesta.

UNCIVPOL v UN MP's

The title sounds very formidable but it was only a games night! Organised by the joint committee of both Civil and Military Police, it was held at Wolseley Barracks Recreation Hall. UNCIVPOL led all the way in darts, table tennis and chess. Understandably the chess "ground to a halt", early in the evening!

The Military Police did remark that, "a good time was had by all!" Everyone knows the implication of that remark, so obviously the evening was a great success!

Recovered from the fray of the games evening, Cpl 'Bob' Welpley, PMC of the MP's Cpls Mess presents the Cup to Chief Supt 'Guy' Habermann, UNCIVPOL.

ECONOMIC AND SOCIAL COUNCIL...

(Continued from page 1)

ral resources, and technical co-operation.

The survey is confined to "principles, guidelines and directives that Member Governments of the United Nations and related agencies have themselves formulated in resolutions, declarations and similar texts", an introductory note states. Some of the points made in the 48-page survey follow.

PRINCIPLES CITED

In reviewing principles of co-operation for development, the study cites the following, among others:

- "The generally accepted conviction that it is a prime duty of the United Nations to accelerate the economic and social advancement of less developed countries";
- "The recognition that the accelerated economic and social development of less developed countries

is essential to the attainment, maintenance and strengthening of international peace and security and to friendly relations and mutual understanding between nations";

—"The economic and social development of the less developed countries depends primarily on their own efforts"; "the national efforts of developing countries must be supplemented and strengthened by constructive international action"; and special measures are required to solve problems of "the least developed among the developing countries".

—"International co-operation and assistance to the less developed countries should "contribute to safeguarding and strengthening their independence".

OBJECTIVES OF DEVELOPMENT

The ultimate objective of development is "an improvement of the conditions of man's existence and guaranteeing respect for his dignity", the study observes. Within this "supreme objective" it cites a number of special goals such as:

- "The elimination of hunger and the raising of levels of nutrition;
- "Improvement of health standards and the extension of adequate health services to meet the needs of the whole population;
- "Eradication of illiteracy and extension of general and vocational education at all levels;
- "The raising of levels of employment and income in both rural and urban areas;
- "The improvement of housing conditions and community services;
- "The provision of social welfare and comprehensive social security services.

The report was prepared in response to a resolution adopted by the General Assembly in 1966 which requested the Secretary-General to prepare a survey of the principles, directives and guidelines for action in the field of development as contained in the resolutions and declarations of the United Nations and related agencies. Dr. David Whiteman, a reader in international economic history at the University of Birmingham, England, served as a consultant in the preparation of the report.

TRAINING CENTRES..

(Continued from page 1)

and regional training programmes and to provide advanced and upgrading services.

Twenty-six participants from 24 countries in Africa, North and South America, Asia and Europe attended the meeting, which was organized with the co-operation of the International Committee on Prosthetics and Orthotics of the International Society for Rehabilitation of the Disabled.

Prosthetics is the manufacture and fitting of devices and appliances which supply deficiencies, such as artificial limbs; orthotics is the manufacture and fitting of straightening devices.

tabel Nielsen den eneste FN-soldat. Han gennemførte den krævende tur i fin stil og kan nu med stolthed bære den erhvervede dekoration ved siden af sin UNEF-medaille, som han fik på hold XVIII og sin Cypers-medaille som han erhvervede på DANCON VIII.

PRESENT FROM LAPLAND

The Frontier Guards of Lapland have remembered the 21C and other Finnish Officers of the Finnish Contingent with typical Finnish and particularly humorous gifts.

The main part of the parcel consisted of a salmon of 9.8 kilos but there were also; 10 Finnish Frontier Knives and 4.5 kilos of Reindeer meat.

It can be said that the salmon and reindeer meat do not exist any longer. The knives, however, are left to be presented as souvenirs to the Peace Guards of other contingents, whoever these lucky ten may be.

Pictured in the photograph are from left to right; Major L. Skogsström (with the knives in his hand), Lt Col A. Järvilehto, 21C (holding up the salmon), and Lt Col T. Tuominen, CLO (having a firm grip on the reindeer meat).

Lapin Rajavartiosto on muistanut eräitä Kyproksella palvelevia suomalaisia upseereita tyypillisesti suomalaisilla ja varsin mukavilla lahjoilla.

Road Safety Corner

Overtaking can be a dangerous business, particularly on the narrow roads of Cyprus.

Do not overtake

a. Unless you are sure you can do so safely.

b. When approaching a traffic hazard; a bend, hill crest, road junction, pedestrian crossing, hump back bridge.

c. Where the road is marked with a continuous white line.

d. When to do so would force another driver to swerve or slow down.

When overtaking DO.

a. Check your mirror.

b. Give a clear signal.

c. Return to your own lane as soon as possible — but without cutting in.

d. Cancel your direction indicator.

IF IN DOUBT, DON'T

UNFICYP FUNDS...

(Continued from page 1)

In deciding to make this voluntary contribution, the Federal Council has noted with satisfaction the efforts carried out by the parties involved to try to find a solution to the conflict in Cyprus and hopes that everything possible will be done to ensure them an early success in this undertaking.
